OE-Quality Direct Replacement Universal Joints For AAM Applications

Detailed Application Information Contained in the NEAPCO 2005 Universal Joint Catalog

American Axle & Manufacturing (AAM) is supplying an increasing number of driveshafts to OEM's for popular late model trucks like Dodge Ram 2500 & 3500 and Chevy Silverado/GMC Sierra 2500 & 3500. AAM has introduced new series designations to help differentiate these parts from similar Spicer parts. There are also slight dimensional differences between the AAM & Spicer series that have caused problems when trying to interchange or identify parts.

NEAPCO has developed direct replacement permanently lubricated universal joints specifically for the AAM series yokes. These new u-joints have been engineered to address these dimensional differences, and meet or exceed OE performance and quality requirements. Neapco recognizes that consumer awareness of NVH (noise, vibration & harshness) issues has increased dramatically in recent years so these parts have been designed to help maintain the OEM driveshaft balance integrity.

All of these parts are now in stock and are available for immediate shipment.

NEAPCO Part Number	AAM Driveline Series	AAM Part Number	OEM Part Number
2-1355	1355	40035334	GM 88982758, DODGE 5142222AA
3-0415	1415	88964505	GM 12471510, GM 88982759
3-0486	1485	40022813	DODGE 5102157AB
3-0485	1485 Wheel Joint	40022783	DODGE 5086665AC
