New 1-1077 Bulk Packaged Snap Rings

Bulk Packaged Snap Rings to Service NEAPCO 0600 Series PTO Yokes

In response to several requests from customers that repair a significant number of drivelines, the bulk packaged snap rings are now available to service the NEAPCO 0600 Series PTO yokes. NEAPCO ceased production of these yokes in 2000 when the 0600 Series yokes were replaced by N1000 Series. The 1-1077 snap rings are to be used with the 1-0170 (N-1000 series universal joint) to convert it to fit the 0600 series yokes. This box of sixty (60) snap rings has been added to address this service requirement. The snap rings in this kit are .050 thick.

Package Qty 60 pcs.
